

SHASHANK KESARWANI

Senior Product Designer

Delhi NCR, India +91 96530 60302 amshashankk@gmail.com [Portfolio](#) [LinkedIn](#)

SUMMARY

Senior Product Designer with 5 years of experience in product design and interaction design, specializing in driving measurable business results through user research, wireframing, prototyping, and scalable design systems across complex B2C/B2B platforms. Proven ability to collaborate cross-functionally and apply user-centric design methods to solve complex problems, resulting in significant uplifts in activation, retention, and conversion (up to +38.8%).

WORK EXPERIENCE

Senior Product Designer

Dalvoy | 2025 - Present

- 0-to-1 EdTech design; organic growth focus - 50k+ downloads, D30 retention improved from 3% to 10%.
- Home page redesign resulting in +62% lesson starts.
- Created a design system at Dalvoy with 200+ variables & components.

Product Designer

SpeakX | Oct 2024 - 2025

- System-level design by creating and scaling a Design System from scratch; migrated assets to Figma, significantly streamlining developer collaboration and ensuring design consistency at scale.
- Led the design of the premium page and checkout funnel; used A/B testing to validate interaction design decisions, resulting in a +38.8% increase in paid user conversion.
- Navigated ambiguity to redesign the core onboarding flow, leading to a +6.01% uplift in Day 1 retention and improved new user activation.
- Leveraged contextual design (exit-intent popups) to reduce user churn and contribute to a 4% increase in D1 retention.
- Designed a feature of live workshop for English learning, resulting in a +38% increase in session time from 13 mins to 18 mins and improved D7 retention.
- Created Word of the Day/Quiz of the Day feature, which delivered a +1.9% D1 retention uplift and a +30% increase in quiz participation.

Product Designer

Vaoprtech | Dec 2022 - Oct 2024

- Owned end-to-end UX design projects for SaaS tools - from user research, wireframing and prototyping to final UI delivery.
- Built design system to improve consistency and reducing dev handoff errors by ~15%.
- Conducted user interviews, usability testing, and journey mapping that uncovered navigation issues, leading to 7-10% higher feature adoption.
- Added micro-interactions and motion graphics, resulting in +10% engagement and +8% early retention.

- Partnered with product and engineering on complex flows, balancing usability with technical constraints.

UI/UX Designer

Mobcoder | May 2021 - Nov 2022

- Translated user research into wireframes, prototypes, and final UI for B2B & B2C web applications.
- Collaborated with cross-functional teams to refine information architecture and interaction flows.
- Applied iterative testing and design refinements, boosting user engagement across products.

TOOLS

Figma, Sketch, Adobe XD, Motiff, Rive, After Effects, Lottie, Jira, Notion

AWARDS

SpeakX | May 2025

Best Performer of the Month

Mobcoder | Oct 2021

Best Performer of the Year

EDUCATION

Institute of Technology & Management | 2017-2021

Bachelor's of Technology
